

# European Structural and Investment Funds

The **European Structural & Investment Funds (ESIF)**, which are mostly devolved back to the member states and, in the case of the UK, then distributed separately in England, Scotland, Wales and NI. The ESIF also covers the **Interreg** programme which funds projects on the basis of trans-national partnerships and which distributes funds via a number of geographically focused strands and sub-strands (England is eligible to participate in 6 of these sub-strands).

## EAFRD: European Agricultural Fund for Rural Development

The EAFRD is disseminated in the UK in two main ways – **direct grants** allocated via the **Rural Payments Agency** (RPA, an agency linked to **DEFRA**, the Department for the Environment, Food & Rural Affairs) and **LEADER** grants allocated via **Local Action Groups** (LAGs). Unlike all other ESIF funding programmes, there did not appear to be any easily accessible online databases for the EAFRD. DEFRA was therefore approached directly for the relevant information, and their response to this request is outlined for each relevant period below.

Due to the difficulties in accessing information via DEFRA, we also approached the current Local Action Groups (LAGs) to ask them if they could provide information on grants in since 2007. Of the 80 LAGs for 2014-2020, about half replied – though some replied to say that their LAG was new from 2014-2020. The following list of LAGs shows those where information has (and has not) been obtained:

If it was a different LAG in 2007-2013, this previous LAG no longer exists so it has not been possible to contact them and so (again, given the lack of any over-arching lists of databases) it has not been possible to identify any 2007-2013 grants for these locations. There may therefore be some

gaps in this data, as it has not been possible to obtain information from all the Local Action Groups, in particular for the 2007-2013 period.

For each period, there are therefore 2 sets of data:

- That provided by DEFRA
- That compiled from the information supplied by the LAGs

## 2007-2013

After a lot of correspondence, DEFRA/RPA stated that there were “137 projects which were paid £3.2m in grant funding in the 2017-13 programme” but were unable to provide any further breakdown as they stated that they did not categorise these grants by English region or by artform. After further correspondence, they did agree to provide a list of these grants (though the total was less than the 137 projects and £3.2m in grants initially stated), with the first part of the relevant postcode for that grant. From this postcode, we have been able to identify the relevant English region and, from the project name, we have been able to identify the relevant artform for most of these grants.

DEFRA/RPA also stated “that prior to 2014 it was not a requirement to release the identities of recipients, under the terms of the Data Protection Act” but that “payments for previous years can be accessed online via [The National Archives web archive](#)” – however, there has not been enough time to undertake additional research via this source.

## DEFRA LIST

In the following table there are some gaps – these were explained by DEFRA as follows: “You will notice that some project names have been redacted (blacked out) where the recipient was a natural person and the amount received was less than €1,250 which equates to £1,045 in 2013. Please be aware that the details of one recipient on is not held by the RPA.”

The DEFRA list did include some grants that were also on the LAGs lists (see below) – these are in italics at the end of that list.

## Europe for Citizens

As a general point, the listings of successful projects for this programme do not provide information about other partners – so it is impossible to tell whether any of these other partners were from England. And, even if this information was available, the project title is usually such that it does not provide enough information to tell whether the project was relevant to the sector.

### 2007-13

<b>Town Twinning</b>	There were some grants to UK local authorities and twinning associations. However, these lists only provide the names of the twin towns and, given these are simply meetings between twin towns, it is unlikely these were especially relevant to the arts or museums.
<b>Networks of Twin Towns</b>	There were a small number of grants to UK local authorities and others but no evidence that any of these had an arts or museums focus. The only grant that mentions the arts was to Downpatrick in NI – 143,734 euros for “Sport, Arts and Culture, Tourism, Economy and Volunteering” in 2009.
<b>Citizens Projects</b>	There were a small number of grants to UK organisations (e.g. 100,000 euros to Plantlife International in 2011 for “Natural Networks of Places and People”) but none (in any part of the UK) appear to have an arts or museums focus.
<b>Civil Society Projects</b>	There were a small number of grants to UK organisations but none (in any part of the UK) appear to have an arts or museums focus. The closest were: <ul style="list-style-type: none"> <li>• 149,000 euros to European Alternatives Ltd in 2013 for “Transeuropa Citizens Festival”.</li> <li>• 32,914 euros to the Media Diversity Institute in 2009 for “A European Dialogue on the EU Media and Diversity Study”.</li> </ul>
<b>Remembrance Projects</b>	There was just 1 grant to any UK organisations in this period – and this was to an arts organisation for a performing arts project. However, it was in Scotland: 22,000 euros to Bench Tours Productions in 2007 for a theatre production based on the experiences of disabled people in the Holocaust.
<b>Operational Grants &amp; Support Measures</b>	There were 4 UK organisations receiving grants from this strand but none (in any part of the UK) appear to have an arts or museums focus.

### 2014 onwards

<b>Remembrance</b>	There were 3 grants to UK organisations of which two were relevant: <ul style="list-style-type: none"> <li>• 97,250 euros in 2014 to the Imperial War Museum (London) for the “Positive Propaganda Project” (ref 555995)</li> <li>• 95,000 euros in 2016 to the 6 Million+ Charitable Trust (Huddersfield) for “Every Button Counts” (ref 577166)</li> </ul>
<b>Town Twinning</b>	There were a small number of grants to UK local authorities and twinning associations. However, these lists only provide the names of the twin towns and, given these are simply meetings between twin towns, it is unlikely these were especially relevant to the arts or museums. The most relevant grant was not in England – it was 5,000 euros in 2014 to Aberdeen City Council for “Cultural Connections”.
<b>Networks of Towns</b>	No grants to any UK organisations.
<b>Civil Society Projects</b>	There were 3 grants to UK organisations but none (in any part of the UK) appear to have an arts or museums focus.
<b>Operational Grants</b>	There were 4 UK organisations receiving grants from this strand but none (in any part of the UK) appear to have an arts or museums focus.

## Erasmus + / Lifelong Learning / Youth in Action

The following projects have been identified as relevant to the arts and museums. This section excludes **higher education** grants as these are just to Universities for student exchanges, and the info gives no indication what subjects the students may be studying.
